

"Haunting melodies, and refreshing harmony, woven through beautifully crafted compositions, Eran Har Even & Sanne Huijbregts are fearless adventurers of their **exquisite musical world.**"

- Becca Stevens

After the successful CD *Something So Sweet* and online EP *Still*, EvenSanne is decisively moving towards the production of a new record. Fresh material, an original new sound and an extended line up will all melt together into a solid piece of inspiration that will have a meteoric impact on the musical fantasies.

Besides the lively compositions of both vocalist Sanne Huijbregts and guitarist Eran Har Even, this band grabs the attention by creatively using loop-stations which gives the music a multidimensional depth, the by effect-pedals and unique instruments such as the EWI colored sound, and the excellent improvisation by all band members, forthcoming from the jazz tradition.

EvenSanne performed on stages such as the Bimhuis, the Uitmarkt, Jazzfest, the Grachtenfestival and Radio 6, toured in Israel, France and Germany and won the Incentive prize in 2014 plus The Records 2015 of the Keep an Eye jazz award.

"EvenSanne is simply a **unique and magical duo.** Two people able to make so much harmonic and sonic richness and with a truly creative and out-of-the-box approach. Plus, as a guitar player myself, Eran is one of the very best in my humble opinion - an inspiring and original voice on the instrument!"
